HARI PRASAD GUNTUKU

Data Analyst | SQL | Python | Power BI | Tableau | Excel | Statistics

Hyderabad, India | +91 8555081508 | connect.hpg@gmail.com | linkedin.com/in/[your-linkedin] | github.com/dot-hpg

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience turning large operational and customer datasets into business decisions. Writes production SQL (CTEs, window functions) and Python to automate reporting pipelines, builds Power BI and Tableau dashboards that stakeholders use to track KPIs, and applies statistics (hypothesis testing, A/B testing, confidence intervals) to answer business questions with evidence. Built RFM/CLV customer segmentation that identified high-value customer groups for targeted strategy. Currently pursuing an M.S. in Computer Science (AI & ML).

TECHNICAL SKILLS

SQL: MySQL, PostgreSQL, Joins, CTEs, Window Functions, Subqueries, Aggregations, Data Modeling

Python: Pandas, NumPy, SciPy, Matplotlib, Seaborn, Scikit-learn, Jupyter

BI & Reporting: Power BI, Tableau, Streamlit, Advanced Excel (Pivot Tables, Lookups, Charts), KPI Dashboards, Automated Reporting

Statistics & Analytics: EDA, Hypothesis Testing (t-test, ANOVA, Chi-Square), A/B Testing, Confidence Intervals, CLT, Cohort Analysis, Customer Segmentation, RFM / CLV Modeling

Data Quality & Tools: ETL Automation, Data Cleaning, Data Validation, Git/GitHub, Docker, Stakeholder Requirements Gathering

PROFESSIONAL EXPERIENCE

Data Analyst | Ivue Technologies Pvt. Ltd., Hyderabad *Mar 2024 – Apr 2026*

- Built and automated SQL and Python data pipelines (joins, CTEs, window functions) for extraction, transformation, and reporting across [X] business units, replacing manual spreadsheet pulls.
- Developed [X] Power BI dashboards and KPI reports, partnering with [sales / operations / finance] stakeholders to define requirements, metric logic, and refresh cadence.
- Automated recurring [weekly / monthly] reporting workflows with SQL and Power BI, reducing manual reporting effort by ~[X] hours per [week / month] and making delivery consistent and on time.
- Analyzed operational datasets of [X] million+ records with Python and Excel to surface customer behavior patterns and business opportunities, presenting findings to [managers / business leads].
- Built RFM segmentation and customer lifetime value (CLV) models to identify high-value customer groups, informing targeted [retention / marketing] strategies.
- Implemented data validation and transformation checks across pipelines, keeping figures accurate and consistent between source data, reports, and dashboards.

DATA ANALYTICS PROJECTS

E-Commerce Sales & Operations Analysis (Target Brazil) | SQL, Python, Tableau

- Queried 100K+ orders with advanced SQL to analyze revenue trends, delivery performance, and payment behavior; built Tableau dashboards to track these KPIs over time.

Walmart Customer Purchase Analytics | Python, Pandas, NumPy, SciPy

- Analyzed 550K+ Black Friday transactions; used the Central Limit Theorem and confidence intervals to compare spending across customer cohorts and recommended targeted promotions.

Yulu Shared-Mobility Demand Analysis | Python, SciPy, Statistics

- Applied t-tests, ANOVA, and Chi-Square tests to identify statistically significant drivers of rental demand and recommended fleet allocation strategies.

LLM Quality Analytics Dashboard | Python, SQL, Streamlit, Power BI *github.com/dot-hpg/rag-eval-dashboard*

- Defined evaluation metrics (retrieval relevance, faithfulness, answer quality), logged queries, latency, and scores to a SQL database, and built a dashboard comparing configurations to select the best-performing setup.

Also built: RAG document Q&A service and a multi-agent research assistant (Python, LangChain, LangGraph, FastAPI) at github.com/dot-hpg.

EDUCATION

M.S. in Computer Science (AI & ML), In Progress | Woolf University, via Scaler Neovarsity
Advanced Data Science & Machine Learning Program, In Progress | Scaler Academy
Bachelor of Architecture (B.Arch), First Class | School of Planning and Architecture, New Delhi

CERTIFICATIONS

SQL (Intermediate) and SQL (Basics), HackerRank | Python Libraries, SQL, EDA Fundamentals, Exploratory Data Analysis, NSDC
